Introduction

What is GSAFleet.gov

The General Service Administration Office of Fleet Management's (GSA Fleet) mission is to provide safe, reliable, low-cost vehicle solutions that assist federal agencies in effectively and efficiently meeting their mission and federal mandates. GSA Fleet manages mandatory Government-wide vehicle acquisition programs, provides Federal agencies full-service vehicle leases, and offers short-term vehicle rentals. GSA Fleet users currently use 19 disparate system applications to meet this mission. GSAFleet.gov consolidates those 19 systems into a single integrated system enabling value-added fleet management services through enhanced automation provided to agencies as service offerings to improve their fleet management. GSA Fleet's modernization will allow agencies across the government to reap the benefits of the resulting solution and enhance a widely leveraged shared service.

Creating an Account and Logging In

This [document](#) details how to create an account in GSAFleet.gov and how to log in.

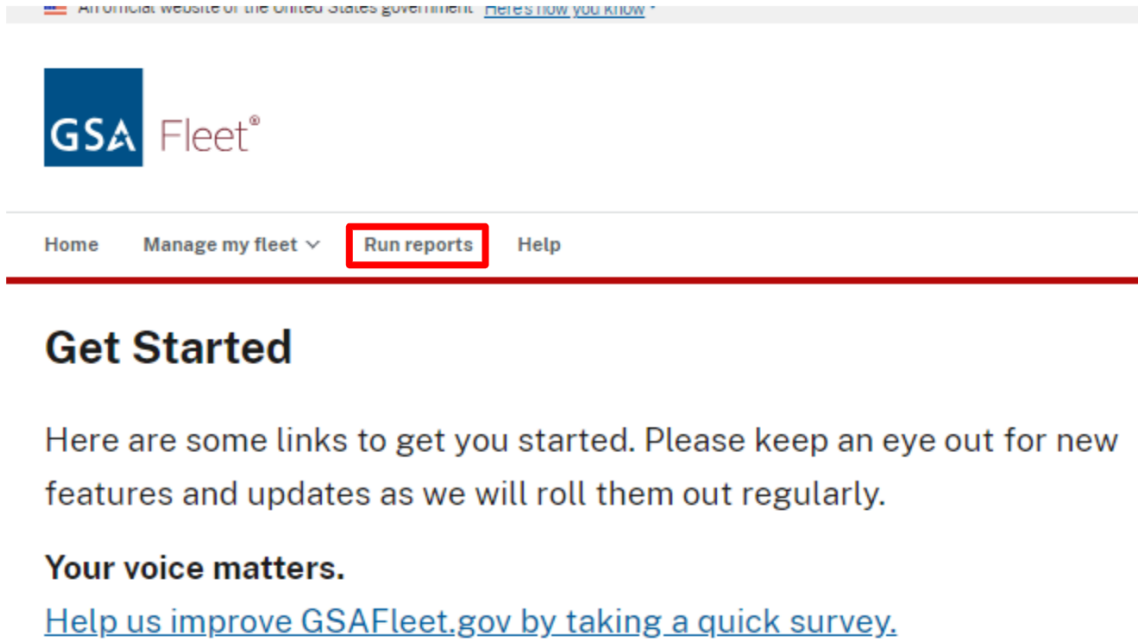

Reports Overview

Whether you need to run a report for your entire Agency fleet or a single vehicle, "Run reports" is where GSAFleet.gov users can search for and extract vehicle data for fleet management needs. The table below lists which reports are currently available in GSAFleet.gov and outlines which type of data is available.

Report Name	Data Type Available	Schedulable?
FAST report	Agency Owned Vehicles	No
Vehicle repair order report	Agency Owned Vehicles	No
Vehicle Inventory Report	Agency Owned Vehicles	No
Vehicle fuel use report	Agency Owned and GSA Leased Vehicles	Yes
Agency incurred expense (AIE) report	GSA Leased Vehicles	Yes
CRASH (accident data)	GSA Leased Vehicles	Yes
Customized Inventory Report	GSA Leased Vehicles	Yes

Download Vehicle Reports

Step 1. From the home screen, select *Run Reports* from the main menu bar at the top of the screen.

Step 2. Select between agency owned and GSA leased and the desired report type.

Note: As of right now, agency owned and leased reports must be run separately.

Vehicle Report

Use this tool to export vehicle data to your desktop via an email from this system. You can also schedule reports.

For more information, please see the [Vehicle Inventory Management User Guide](#).

Required fields are marked with an asterisk (*).

1 of 3 Report selection

Vehicle ownership options *

- ☒ Agency owned
- ☐ GSA leased

Choose from available reports *

[Cancel vehicle report](#)

Reports

Step 3. Complete the Agency/Vehicle Selection and report filters as listed. Then click *Export report to email*. Once clicked, a confirmation message will appear showing the export has been initiated and will be emailed to the user.

[Home](#) > [Vehicle Reports Manager](#) > Export Vehicle Reports

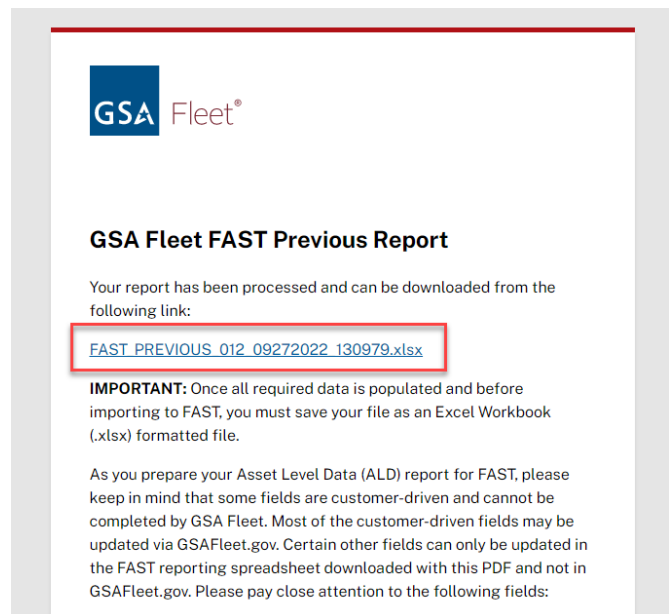

✓ Export Initiated

The report you've created is now being processed for export and will be emailed to you upon completion. Depending on the file size, this may take up to 15 minutes or more. If you experience technical difficulties exporting, please contact the GSA Fleet Technical Support team at fleet_helpdesk@gsa.gov or 866-472-6711 from 8:00 a.m. - 7:00 p.m. ET, Monday-Friday.

Step 4. The user will receive an email from do-not-reply@gsa.gov with a download link to the report. The link is available for 7 days.

Note:

- The downloaded spreadsheet contains an *Instructions* and a *Reference* sheet to help users quickly identify the appropriate responses for columns within the template.
- The title row (Row 1) of each spreadsheet template contains a note that defines the column description and also defines if that could should be updated.

Bulk Update Vehicle Data

Step 1. From the home page, navigate to the *Vehicle Reports Manager* page.

License Plates

Track and manage the details and history of each license plate. Manage license plates that need to be reconciled, reported damaged, have gone missing, or need to be returned for destruction.

Vehicle Reports Manager

Generate reports for FAST, vehicle inventory, expenses, fuel usage and repairs. You can also export a template that you can use to bulk update Customer Driven Data, expense data and mileage.

Vehicle Expenses

View and track transactions from your fuel card provider as well as manually loaded expenses.

Step 2. From here, click *Export Template for bulk updates*.

[Home](#) > Vehicle Reports Manager

Vehicle Reports Manager

BULK UPDATES

This tool allows you to bulk update the vehicle data.

1. First export the template provided, complete all the required steps
2. Populate the template with vehicle data in your desktop
3. Import the template back to the system

Export template for bulk updates

Download vehicle templates for Customer Driven Data (CDD), mileage and expense.

Import template for bulk updates

Use the exported template to import and bulk update vehicle reports.

Reports

Step 3. Select the template type for the information to be updated. Vehicle data for the agency/bureau/office selected will be pre-populated on the template.

Note: Users also have the option to immediately download blank expense and mileage templates by clicking the hyperlinks at the top of the page.

[Home](#) > [Vehicle Reports Manager](#) > [Export Template for Bulk Updates](#)

Export Template for Bulk Updates

This tool allows you to export vehicle template for bulk updates. Please complete all the required steps to export the template via an email or download a blank template to your desktop. Once you complete populating the template, please [import the template for bulk updates](#).

Required fields are marked with an asterisk (*).

[Download blank expense template](#) ⬇

[Download blank mileage template](#) ⬇

Choose from available templates *

-Select-

-Select-

Customer Driven Data (CDD) template

Vehicle mileage history template

Vehicle expenses template

Step 4. Users will see a notification confirming that the template will be emailed. Once received, the email will contain a download link that is available for 7 days.

NOTE:

- All templates have an *Instructions and Reference* sheet to help users quickly identify the appropriate responses for columns within the template.
- The title row (Row 1) of each spreadsheet template contains a note that defines the column description and also defines if that could should be updated.

Your template is ready for bulk update

Customer Driven Data (CDD)

The Customer Driven Data (CDD) template you requested via GSAFleet.gov is now available for download:

[CDD_09282022_120970.xlsx](#)

Please note: the link will expire in 7 days. If you cannot access this link, copy and paste the entire URL into your browser:

https://s3.amazonaws.com/afp-doc-store-stage/vrms/report-export/_1b119bb3-b65c-4e16-8226-e258bd77cb73/CDD_09282022_120970.xlsx?X-Amz-Algorithm=AWS4-HMAC-SHA256&X-Amz-Credential=AKIA5WCN6OTJM5QE3FM%2F20220928%2Fus-east-1%2Fs3%2Faws4_request&X-Amz-Date=20220928T180319Z&X-Amz-Expires=604800&X-Amz-Signature=646d39219c567faa34c6336499414f39bf6fb5714e6125ddb8c40c7efdcdf540&X-Amz-SignedHeaders=host&response-content-type=application%2Fvnd.openxmlformats-officedocument.spreadsheetml.sheet

INSTRUCTION

1. Download this file above and make all necessary updates to your data. There is a guide on sheet 1 to help with data validation and standards
2. When you are done updating your report, [upload your data](#) back by navigating to Bulk Import in Vehicle Reports Manager

If you have any difficulties, please try your export again or contact GSA Fleet Technical support at 866-472-6711 from 8:00 a.m. – 7:00 p.m. ET, Monday–Friday. Or email fleet.helpdesk@gsa.gov

Reports

Step 5. Users can bulk upload the updated data in GSAFleet.gov either by clicking the *Upload your data* hyperlink contained in the email or by clicking on the *Import template for bulk updates* box in the *Vehicle Reports Manager*.

Vehicle Reports Manager

BULK UPDATES

This tool allows you to bulk update the vehicle data.

1. First export the template provided, complete all the required steps
2. Populate the template with vehicle data in your desktop
3. Import the template back to the system

Export Template for bulk updates

Download vehicle templates for Customer Driven Data (CDD), mileage and expense.

Import template for bulk updates

Use the exported template to import and bulk update vehicle reports.

Step 6. Select the template type and add the updated template file to the upload space.

Import Template for Bulk Updates

If you would like to update multiple records at once, this tool allows you to bulk update the vehicle data. You must first [export the template](#) provided, complete all the required steps, and upload the template for bulk updates.

Required fields are marked with an asterisk (*).

UPLOAD FILE

Please indicate which vehicle report you would like to update. You must use the template generated from [Export Template for Bulk Update](#).

Reports

Step 3. The fourth step on the stepper is to schedule the report. On this page, you will be asked to fill out the following fields:

- Report name
- Report frequency. You will select from the dropdown either weekly, monthly, or quarterly
- End date for the report
- Any additional recipients you would like to receive the report at the requested frequency. You can add up to 9 email addresses

Once you have completed these fields, select the *Schedule report* button.

Reports

Step 4. Success! A green banner will appear at the top of the *Schedule Reports* page to show that you have successfully scheduled a report.

The page you have been taken to is the *Schedule Reports* page, which will list all of your scheduled reports in a table with filters on the left-hand side to sort through your reports. There is also a button on the top right corner of the table that reads *Create scheduled report*, giving you another way to schedule/run any reports.

Note: Report status definitions are as follows:

- **ACTIVE** - Active report
- **INACTIVE** - Report has passed its “end date” - can be reactivated by going to “Edit” and updating the report.
- **SUSPENDED** - User requested to “suspend” the report. You can go back to actions and “unsuspend”

[Home](#) > [Vehicle Reports Manager](#) > Scheduled Reports

Your recurring report **CRASH Monthly Report** has been created. To make changes, edit this report from the table below.
